

PRESS RELEASE

Date of release: September 05<sup>th</sup>, 2007**FOR IMMEDIATE RELEASE****Casino Technology got the Best Stand award at Peru Gaming Show**

Casino Technology got the Best Stand award at the fifth edition of Peru Gaming show in Lima. During the show Casino Technology's stand was one of the busiest points at Jockey Plaza Exhibition Center where operators from Peru, Chile, Colombia, Venezuela, Uruguay and Argentina were attracted by the variety of video-slot games of Bulgarian slot manufacturer. Sales executives of the company reported that the show had been very successful as all the exhibited video-slot products have been booked, and a large proportion of the slot machines were directly sent for trials in Panama and Honduras. As a new and encouraging trend for the region they also observed an increased interest in multi-game products, as Casino Technology's latest series MULTI GEMINI was one of the most sought after products during the show.

Following the increased popularity of Casino Technology products in Latin American markets the company has adapted a significant part of their videoslot library in the Spanish language, which has increased the number of games available to a total of 30. By the end of September a new portion of video slots, including some of the latest releases MULTI GEMINI, MYSTICAL JEWELS, CASH PARTY, NUBIAN PRINCESS, EMPEROR'S ADVENTURES, TENNIS CLUB and COFFEE MAGIC, will get a BMM laboratory certificate, which makes them available for use in Peru and Argentina. The whole range of new products will be demonstrated at stand No G28 at SAGSE, Buenos Aires in October.
