

PRESS RELEASE

Date of release: December 1st, 2006

**Casino Technology was honoured to receive Heber's 500 000<sup>th</sup> gaming controller at G2E**

At a special ceremony, which took place at Casino Technology's stand at G2E in Las Vegas, a presentation was made by Heber for their 500 000<sup>th</sup> gaming controller. A commemorative board was presented in a specially framed display to Casino Technology's Executive Director, Ivan Tzankarski.

The successful collaboration between Casino Technology and the electronic control systems designers has continued for almost 10 years. The Bulgarian slot manufacturer uses custom developed boards from Heber to produce high quality and innovative video slot products, which perform extremely well in more than fifty countries.

At the ceremony, which took place on the second day of G2E, the companies were represented by Casino Technology's founder and president Milo Borissov, Casino Technology's Executive Director Ivan Tzankarsky, Heber's Managing Director Richard Placito and Heber's Sales Manager John Malin. Both parties expressed their satisfaction with the long-standing collaboration.

The presentation was made in front of branch specialists and representatives of the leading world gaming press and media. After the ceremony they tried some of the latest video slot products displayed on the stand. The company was demonstrating a selection of their latest high performing slots from the extensive 'Gemini series' library, including Gamopolis multi-game, Coffee Magic, Golden Elephant, Full of Jewels, Silk Quest, Fitmania, Purple Hot, and Milady. All the games from the range feature second video screen, various interactive features and they also support multi-denomination, SAS 6.01 protocol, on-line and Cashless Systems, as well as more than 6 different types of jackpots.
