

PRESS RELEASE

Date of release: May 4th, 2007

## Casino Technology expands at the Balkans

In October 2006 in Bucharest, was founded Advanced Technology Innovations as a representative branch of Casino Technology group of companies for Romania and Republic of Moldova. Since then Casino Technology products have rapidly entered the local market being exceptionally well accepted. During the past few months a variety of Casino Technology products have been installed in numerous casinos in 7 cities across the region including those of major operators like Golden Palace, Max Bet, Ritzio Group, Top Games and Viva! Group.

The most popular product currently is the entire GEMINI series line, of luxury dual-monitor slot machines, complemented by a wide array of video games that can be linked to the multi-level jackpot system QUATRO CASH MANIA. Our clients find the original Jackpot signs from Casino Technology offered both as a standard production or custom-made according to specific clients' project and size of the premises particularly attractive.

According to Martin Ivanov, the managing director of Advanced Technology Innovations, the reasons for the rapid success of the Casino Technology brand in Romania lie behind the high quality and diversity of the product range and also in the flexible sales policy and the reliable after sales support. "Our products are available for sale and rent, and we provide the set up, prompt service and guarantee support of the equipment. In order to provide our customers with first hand knowledge and understanding of our video slot products we provide complete demonstration at their 's premises."

All the Casino Technology products are on display in the new show room located in Bucharest and the company is proud to announce that we now offer our products with the essential new approval, issued by the National Metrology Board. This certification document, affords customers the ability to register their equipment with greater ease and speed. Since 1<sup>st</sup> of April 10 of our most successful video-slots from the Gemini series, along with the top multi-games MULTI GEMINI 1 and GAMOPOLIS has been granted this certification.
