

PRESS RELEASE

Date of release: November 1<sup>st</sup>, 2008**FOR IMMEDIATE RELEASE!**

## **Another successful show for Casino Technology in Latin America**

Casino Technology's products proved successful with casino operators from a range of South American countries during SAGSE Buenos Aires. They demonstrated a selection of the latest video slot releases from the GEMINI series, which drew visitors attention with their lavish 3D graphics and impressive bonus features: DEEP WATER FISHING, KILIMANJARO TREASURE, OCEAN MADNESS, QUEEN OF NUBIA, GOLDEN BIRD, etc.

Following the successful performance of some of the most popular PC-based video-slot games, including AZTEC RETRUNS, WILD WILD AFRICA and OCEAN DELIGHT registered in Honduras, other operators from the country showed interest at SAGSE for more installations of GEMINI video slots complete with two QUATRO CASH MANIA jackpot systems.

Casino Technology also demonstrated the popular multi-game series, MULTI GEMINI, which has proven very successful in Uruguay, and some of the latest versions from that series were sold during the show. The local operators from Argentine were mostly impressed by the two gaming automat series offered by the company, including the luxurious GEMINI line as well as the more economic model G-CLUB designed for gaming halls and arcades.

Casino Technology sales team held very useful meetings and negotiations at SAGSE for upcoming installations of slot machines and multiplayer systems, which are to be finalized at the next show in Las Vegas. At G2E they will also demonstrated the latest Casino Technology top machines GEMINI SENSEA, which are expected to impress the audience with a range of progressive solutions and innovations, which enhance the options for entertainment, interaction and multimedia presentation.
