

PRESS RELEASE

Date of release: August 25th, 2008

Another successful raid for Casino Technology GEMINI series

The famous GEMINI series video slot range from Casino Technology gained further proof of its high performing abilities and suitability for varied slot-floors. With the start of the new business season very encouraging reports are coming about GEMINI video-slots good performance at many different points of the world.

Some of Casino Technology's most successful PC-based games like Aztec Returns, Wild Wild Africa and Ocean Delight proved very popular among players in three locations of Atlantis Casino Group situated on the exotic tropical island in the northeast Caribbean, Saint Martin. Now the operator has picked some more releases from the series, including Golden Bird, Bush Explorer and Carnival Princess, staking on their attractive graphics, interactive user-friendly interface and varied concepts.

More records for good performance are coming from Latin America and Honduras, where the GEMINI series slot machines have been installed in three different casinos: Mr. Jackpot, Montecarlo and Flamingo. The Spanish language versions of the games enjoy great interest from the local players, mostly due to their concept, which is ideally suited to their tastes and expectations.

A successful launch of the latest GEMINI series recently took part at Casino Oracle, in St. Georges Bay resort in Malta, and more products from the series are on order for installation in other locations.

'The popularity of our games demonstrates how their innovative concept is proving successful even in such remote and exotic markets, states Sonia Nikolova, Casino Technology Sales Director. Finding this right working formula for our games is a result of profound research in the markets and close cooperation with some world experts in the gaming industry.'

Following the same proven scheme Casino Technology has prepared to launch a whole pleiad of new releases in September and October. Watch out for new titles: DEEP WATER FISHING, KILLIMANDJARO TREASURE, OCEAN MADNESS, QUEEN OF NUBIA, QUEEN OF FRUITS as well as further multi-game version MULTI GEMINI VIII.

In the meanwhile the company's R&D team is developing a totally innovative concept for their cabinets, featuring a range of new options and solutions, introduced for the first time in the industry, able to increase player's comfort and interaction at completely new level.
