

PRESS RELEASE

Date of release: September 15<sup>th</sup>, 2008**Casino Technology products on focus at G2E 2008 - GEMINI SENSEA™**

Elegant, intelligent, modern! GEMINI SENSEA is coming providing more comprehensive solutions for players. A range of innovative improvements ensures better visual presentation, accessibility and multi-functional user-friendly environment, consistent with natural ergonomics.

GEMINI SENSEA has been developed based on analysis of players' requirements, research and customer feedback from thousands of GEMINI units around the world.

The new development keeps the essential 'musts' of GEMINI series, including easy serviceability and maintenance, along with player comfort and ergonomics, but GEMINI SENSEA also makes a huge jump ahead in player entertainment and enhanced user features.

The most important new feature is the innovative keyboard technology, ensuring instant player control and user-friendly intuitive play. Panorama LCD displays provide better viewing area for greater visual impact; a 3<sup>rd</sup> auxiliary monitor provides a real-time entertainment broadcast; an improved stereo sound system focuses the sound towards the player, limiting the accidental noise interference to adjacent automats, and many other great features allow the player to enjoy the game and to receive enhanced sensations during the play.

Elegant and stylish, the new cabinet keeps the feel of the classic GEMINI but improved with more exquisite lines, beautiful appearance, and light construction. Although fitted with more devices and improvements, thanks to the smart engineering solutions GEMINI SENSEA takes less space on the casino floor, standing out among the other slots and bringing magnificent, luxurious appearance of any type of casino premises.

GEMINI SENSEA comes along with a range of new PC-based video-slot releases, to give a new class of entertainment to the players. Watch out for new titles: DEEP WATER FISHING, KILLIMANDJARO TREASURE, OCEAN MADNESS, QUEEN OF NUBIA, DANCING QUEEN as well as the next multi-game version MULTI GEMINI VIII.
