

FOR IMMEDIATE RELEASE:

5 October 2009

*Media Contact:***Angela Alexandrova, PR & Advertising***press@casino-technology.com**(+359 2) 812 9 300***Casino Technology celebrates its 10th Anniversary launching a series high technology products at BEGE 2009**

On the occasion of the 10th Year since its establishment the leading Bulgarian manufacturer is launching on the market a whole array of new releases in all product categories of gaming equipment, including: video slot games, gaming automats, multiplayer systems and jackpots.

Casino Technology, whose products have been sold on 5 continents will demonstrate for the first time to the local audience more than 10 new releases of video slots games and multi games, including the latest special 3-D games collection displayed in improved versions of the high-end upright cabinet GEMINI SENSEA™ and slant top TANGRA TOUCH™. They feature attractive graphic, visual presentation and sound effects. Following the latest world trends in the new games from Casino Technology are based on the multi-line math concepts featuring entertaining bonus events with adventure, historical or sports theme. An additional variety to the new slot mix is added with the latest multi-level jackpot system ALCHEMIC FUSION™, which has attractive animation displaying the level values and bonus events

helping the operators with the possibility to make flexible settings of the different jackpot parameters, according to the type of gaming premises and the player's preferences.

The R&D department of the company is presenting their latest development – the video slot TANGRA TOUCH™ featuring a range of innovative options, some of them brought from other industries into the gaming market for a first time. These improvements are aimed to bring mainly to player comfort and multifunctional environment.

>>>

TANGRA TOUCH™ has one of the biggest player interaction areas on the market, with larger and more recognisable buttons, easy to handle peripheral devices along with the 'Eye see' technology with 3rd additional 10" monitor for TV or other entertainment broadcasts and promotional features.

The company has given the name „Tangra Touch” to the new vide slot machine willing to highlight its national heritage as a Bulgarian manufacturer, which is build upon the tradition of the long-established Bulgarian craftsmen and fine arts skill. In addition TANGRA TOUCH™ is supported by the new powerful hardware platform whose name is another reference to ancient Bulgarian roots and a manifestation of the most valuable national virtues – power, strength and endurance.

Finally the visitors of BEGE expo will be able to see the unique multiplayer system PLAYME™, whose patented concept combines the automatic roulette built in the cabinet of grand piano. After the success of the first PLAYME™ model now the company is launching even bolder solution where the automatic roulette is linked to configuration of two grand pianos. The makers of PLAYME DUELING PIANO™ explain that the idea behind this product is to bring double fun to players – a triumph of synergy between art and technology in the name of player entertainment.

The exhibits of Casino Technology stand at BEGE 2009 will certainly represent an interesting find for the gaming experts but they will also be an intriguing spectacle for all the admirers of high technologies and entertainment novelties.

About CASINO TECHNOLOGY:

Casino Technology is an established manufacturer of products for casinos and gaming halls. A large library of video slot games, variety of luxurious classic and slant top machines, multiplayer games, jackpot and casino management systems, are some of the products offered to casino operators in more than 50 countries around the world.
