

## COLUMBUS TREASURE

### Type of product

Video-slot game

Columbus Treasure is a 5-reel, 9-winning line video-slot. The Max Win is 10,000 x bet per line. It is based on the story of Columbus and his adventures on his discovery of the American continent, represented in rich cartoon style animations.

*Additional enhancement:* The theme of the game is corresponding to one of the QUATRO CASH MANIA multi-level jackpot storylines, named 'Columbus Treasure', complemented by rich multi-media animations and splendid jackpot signs.

**Free games:** As additional feature the game has only free games mode, triggered by a combination of 3, 4 or 5 bonus symbols "Pyramids" on the screen. They trigger 15, 20 or 25 free games correspondently. If during the free games 3, 4 or 5 symbols "Pyramid" appear once again, the player gets 15, 20 or 25 more free games. Attractive feature: If a free game gives no any win or any new free games, the player is paid the value of the total bet of the game, which has triggered the free game mode.
