

PLAYME VIDEOSLOT™

Video-slot multiplayer station

The Art of Gaming

After the successful launch of PlayMe grand-piano roulette Casino Technology offers a range of new variants revealing further the product's unlimited options and multifunctional use, in terms of spatial configurations and engineering solutions.

This new and unconventional solution is the new multiplayer station offer from Casino Technology.

PlayMe VideoSlot is a multi-station platform completed with video-slot games. All necessary video-slot features are built-in the grand piano cabinet.

Players will have the chance to enjoy some of their favorite video-slot releases, while entertained by the pianist.
